Introducing the best-in-class Alfa Laval DuraCirc® pump

In hygienic applications, use of circumferential piston pumps (CPPs) has always meant settling for compromises. But Alfa Laval DuraCirc is something different. It's the market's first CPP that delivers the perfect balance of durable reliability, high efficiency and superior hygienic performance that's easy to service.

In addition to a class-leading range of performance, flow and pressure capabilities, DuraCirc comes standard with globally recognized hygienic certification. The innovative design also includes features that make cleaning and maintenance faster, easier and more dependable.

The future of pumping is on the move. Join us – and stop settling for compromises.

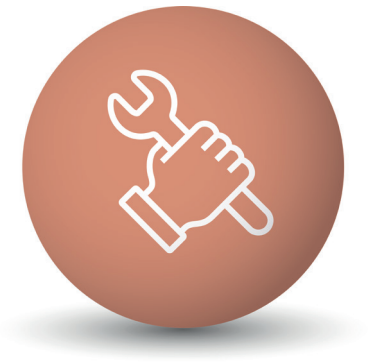

Supreme Performance

Engineered for durability, reliability and efficiency to extend the boundaries of your performance

Superior Hygiene

Safely meets industry hygienic demands, assuring the integrity of your processes and the quality of your products

Simpler Service

Innovative design features make maintenance faster and easier, increasing uptime in your operations

Alfa Laval positive displacement pumps

Alfa Laval provides a complete range of hygienic pump technologies and specifications to meet customers' high demands for preserving product quality, process efficiency, and easy maintenance and service. The range is the market's widest offering of positive displacement pumps for the food, dairy, beverage, biotech and pharmaceutical industries, as well as the home & personal care industry. Every Alfa Laval pump comes with the confidence of our leading expertise and long-term commitment to fluid handling. They are also backed by a worldwide network of highly trained channel partners to ensure a superior customer experience.

This is Alfa Laval

Alfa Laval is active in the areas of Energy, Marine, and Food & Water, offering its expertise, products, and service to a wide range of industries in some 100 countries. The company is committed to optimizing processes, creating responsible growth, and driving progress – always going the extra mile to support customers in achieving their business goals and sustainability targets.

Alfa Laval's innovative technologies are dedicated to purifying, refining, and reusing materials, promoting more responsible use of natural resources. They contribute to improved energy efficiency and heat recovery, better water treatment, and reduced emissions. Thereby, Alfa Laval is not only accelerating success for its customers, but also for people and the planet. Making the world better, every day. It's all about *Advancing better*™.
