Rubber potable waterhose
Mandrel built delivery hose for cold and warm potable water, according KTW norms, cat.C, homologation Nr.C.128377-05, DVGW-W270, homologation Nr.W.130140-05SI, complying FDA standards.

Temperature range	:	-25°C / +80°C
Tube	:	Special translucent plastomer, smooth, mirrorlike, odourless and taste-free. Food quality rubber without plasticizer.
Cover	:	Synthetic rubber, blue, smooth, ageing, ozon and weather resistant. Fabric finish.
Reinforcements	:	High tensile textile plies.
Remark	:	KTW-couplings for potable water on request available

Before using the hose or after a long time inactivity it shall be sterilized at least 2 times for 30 minutes at 130°C or 24 h at room temperature with a solution of sodium hydrate at 0,4%, to be neutralized with a solution of sodium chloride at 0,5%. At the end the hose shall be rinsed with potable water.
